

FOR CAREGIVERS · DAILY CHECK-IN

Daily Caregiver Self-Check

You cannot pour calm from an empty cup. Take two minutes to notice how you are doing.

MORNING

- | | |
|---|---|
| ☐ I slept enough to function | ☐ I know today's plan |
| ☐ I ate something | ☐ I named one thing I need |

MIDDAY

- | | |
|---|--|
| ☐ I paused and took a breath | ☐ I stepped away when I needed to |
| ☐ I drank water | ☐ I noticed my tension level |

EVENING

- | | |
|---|---|
| ☐ I ate a real meal | ☐ I let go of what I could not fix |
| ☐ I did one thing for me | ☐ I planned rest for tonight |

Remember: *If most boxes are empty, that is information, not failure. Start with one.*

Caregiver nervous systems matter too.
