

FOR CAREGIVERS · CALM-MOMENT PLANNING

Family Safety Plan

A calm-moment behavior plan, made together before it is needed. This is not a clinical or suicide safety plan; for those, work with a licensed clinician.

If someone is in immediate danger, call 911. For mental-health crisis support, call or text 988 (available 24/7).

Therapist / worker:

Keeping safe means using space and calm, not physical restraint. If a hold ever feels necessary, get trained guidance from a professional first.

After the storm: When everyone is calm, reconnect and repair.
Review and adjust what did not work.

This tool supports planning and does not replace professional care. Work with your child's therapist or a licensed clinician for a personalized plan. If your family is court or agency involved, a completed copy is a record others may request.
